JOB EXPERIENCES

Avanade Full-Remote — Backend Developer

SEPTEMBER 2021 - NOWADAYS

Senior Backend Developer at [Avanade](#), working on the integration layer of an enterprise-scale project for a multinational energy company. I focus on the design, development, and testing of REST APIs using .NET and Azure Cloud within an event-driven microservices architecture. Our solutions integrate a custom CRM with D365, Salesforce, digital payment APIs, and Azure resources, leveraging MSSQL Server and cloud-native technologies for scalability and performance. While primarily dedicated to development, I also support task coordination and provide technical guidance to team members when needed.

Avanade Full-Remote — Intern, Full Stack Developer

APRIL 2021 - SEPTEMBER 2021

Internship composed of two phases: The first was an academy focused on designing and developing end-to-end cloud-hosted web applications using .NET and Azure, integrating various Azure resources. The second phase involved hands-on experience in a real project, applying the same technologies in a production environment.

TRAINING COURSES

Specialisterne — Web Development & Testing Academy

JUNE 2020 - APRIL 2021

Course (400h) by [Specialisterne](#) on Software Testing Framework ISTQB, Office and web development. Advanced course on Agile methodologies, ASP.NET MVC development, Java development, Salesforce, T-SQL.
